- 20 Application

Complete Solutions for Industrial Valves

As a global leader of valve manufacturing, Neway (SSE:603699) is dedicated to the production, research, and development of industrial valves. Neway is committed to providing complete valve solutions to all industries through advanced engineering and innovation.

Neway’s product line includes Ball, Butterfly, Gate, Globe, Check, Nuclear, Control, Subsea, Safety valves. Our high quality standards and innovative ability are recognized by many global end users and EPCs. Neway valves are utilized in a wide variety of industries and working conditions such as Refining, Chemical, Coal Chemical, Offshore(including subsea), Air Separation, LNG, Nuclear Power, Power Generation, and Pipeline Transmission applications.

Facilities & Service

Neway has developed a sophisticated multi-plant management system operating one valve assembly plant, one API6A valve plant, three foundries, and three R&D center. Our largest assembly plant was expanded in 2013, and it now covers 230,000 square meters.

Advanced software (ANSYS, FE-Safe, CF-Design, Siemens PLM and NX) is applied here at Neway for the Research & Development of products. We use SAP to control the traceability and status of all products during the manufacturing process. In order to ensure the safety, eco-friendliness, and reliability of our products, we use the most advanced fire-safe, cryogenic, high pressure, and fugitive emission test equipment.

As part of Neway’s global strategy, to provide better service to our customers, we have established our overseas subsidiaries in USA, Netherlands, Italy, Singapore, Dubai, Vietnam and Nigeria along with over 80 agents and distributors worldwide.

Quality Assurance

Neway is dedicated to continuous improvement. We maintain a quality management system that encompasses our entire operation from order entry to final inspection. Through continuous efforts, Neway's products have successfully obtained industry certifications, including ASME UV & NB, NBBI, KGS, CE, CCS, and BV approvals.

Quality Commitment

Neway recognizes the importance of valve quality for the safety and protection of personnel health and property. It is our quality commitment to focus our resources to provide our customers with first class products at a competitive price,that are designed, manufactured, inspected and tested in accordance with our customer's specifications and that comply with all international standards.

With respect to the facts that the current industrial standards do not always take into consideration the likelihood and consequences of possible deterioration in service, related to specific service fluids or the external environment in which they operate. Our customers are requested to keep an open line of communication with our engineering department to identify and implement standards, that will provide valves with the possibility of deterioration in service, so as to ensure safety over the valves expected lifetime.

Neway part numbers are designed to cover essential features. When ordering, please show the part numbers and a detailed description to avoid misunderstanding of your requirements.

Following descriptions provide a basic guideline in valve specification:

① Nominal Diameter

Cryogenic Floating Ball Valve Series

Item	Class	Size
1	Class 150, 300	3/8"-8"
2	Class 600	3/8"-3"
3	Class 900, 1500	3/8"-2"

Cryogenic TM Ball Valve Series

Item	Class	Size
1	Class 150, 300	1/2"-40"
2	Class 600, 900	1/2"-24"
3	Class 1500	1/2"-16"

② Valve Types

Cryogenic Floating Ball Valve Series

Code	Type	Remark
BBG	2PC Forging Cryogenic Floating Ball Valve	Class 600 & above or size below 2"
BG	2PC Casting Cryogenic Flaoating Ball Valve	
BDG	Top Entry Cryogenic Floating Ball Valve	

Cryogenic TM Ball Valve Series

Item	Type	Remark
BSG	Forging Side Entry Cryogenic TM Ball Valve	
BEG	Top Entry Cryogenic TM Ball Valve	

③ ASME Class

Code	1	3	6	9	15
Class (LB)	150	300	600	900	1500

④ End Connection

Symbol	End	Symbol	End
R	Raised face flanged end	S	Socket weld end
J	RTJ flanged end	N	Screwed end
B	Butt-weld end		

⑤ Valve Code

Symbol	Description	Symbol	Description
	Lever	M	Electric actuator
G	Gear operator	P	Pneumatic actuator

⑥ Body Material

Code	S00	S00	S02	S03	S40
Material	CF8	CF8M	CF3	CF3M	F304
ASTM Ref	A351 Gr.CF8	A351 Gr.CF8M	A351 Gr.CF3	A351 Gr.CF3M	A182 Gr.F304

Code	S41	S42	S43	L02	L40
Material	F316	F304L	F316L	LC3	LF3
ASTM Ref	A182 Gr.F316	A182 Gr.F304L	A182 Gr.F316L	A352 Gr.LC3	A350 Gr.LF3

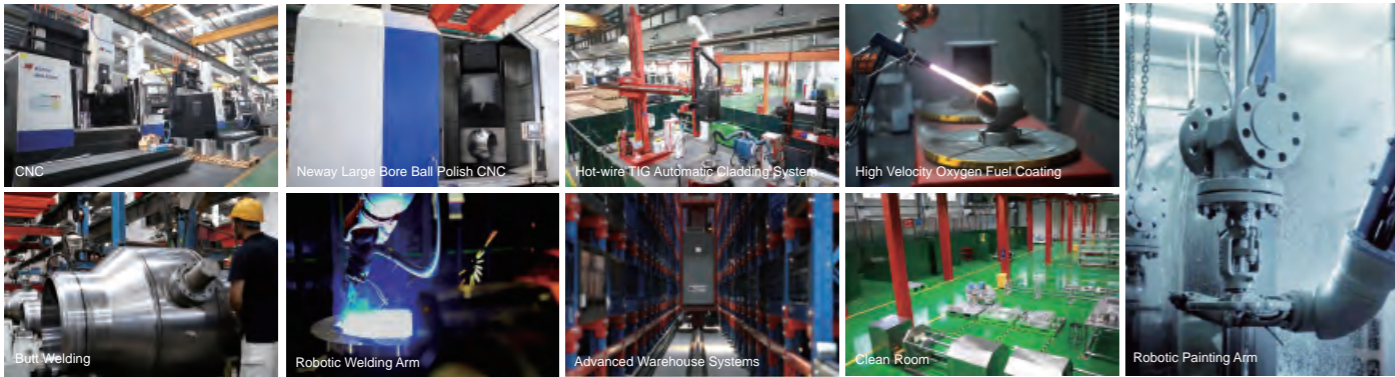

⑦ Trim Code

Seat		O-Ring		Stem		Ball		Packing	
Code	Material	Code	Material	Code	Material	Code	Material	Code	Material
8	PCTFE	N	No O-rings	2	F304	2	F304	X	Low emission stuffing (GRAPHITE)
I	RPTFE			6	F316	6	F316		
3	PEEK			7	F304L	7	F304L		
G	VESPEL			8	F316L	8	F316L		
K	PAI			X	XM-19	X	XM-19		

Seat		Seal Ring		Stem		Ball		Packing	
Code	Material	Code	Material	Code	Material	Code	Material	Code	Material
8	PCTFE	L	Spring seal structure	2	F304	2	F304	X	F304
3	PEEK			6	F316	6	F316		F316
I	RPTFE			7	F304L	7	F304L		F304L
				8	F316L	8	F316L		F316L
				X	XM-19	X	XM-19		

Note:other materials upon request

The latest computer technology has been extensively applied in NEWAY manufacturing, which includes a large number of numeric control machines (machining center, CNC horizontal and vertical lathe, and CNC drilling machine) and ERP management system. Additionally, the data through all factories has been connected and shared. These facilitate resource integration, boost productivity, evidently enhancing machining quality and tightening process control.

NEWAY developed comprehensive and advanced inspection and test facilities to control the quality from rough castings or forgings to final products, which enable us to perform ultrasonic testing, radiographic test, liquid penetrant test, magnetic-particle test, spectrum analysis, Material Positive Identification (MPI), impact test, tensile test, hardness test, fire safe test, cryogenic test, vacuum test, low fugitive emission test, high pressure gas test and hydrostatic test.

Notes:
1.All the sizes are of full port.
2.Pressure Ratings are according to B 16.34.
3.MDMT as per ASME B31.3.
4.Part of design standard refer to SPE 77/200,BS 6364, ASME B16.34 and relevant API/ ASME/ ISO standard.
5.Method of Calculating Flow
The Flow Coefficient Cv of a value is the flow rate of water (gallons/minute) through a fully opened valve, with a pressure drop of 1 psi across the valve. To find the flow of liquid through the valve from the Cv, use the following formulas:

Liquid Flow:
 $Q_L = C_v (P/G)^{1/2}$
 Q_L = Flow rate of liquid (gal. /min.)
 P = differential pressure across the valve
 G = specific gravity of liquid (for water, G=1)

Gas Flow:
 $Q_g = 61 C_v (P_2 P/g)^{1/2}$
(For non-critical flow, $P/P_2 < 1.0$)
 Q_g = Flow rate of gas (CFH at STP)
 P_2 = outlet pressure (psia)
 g = specific gravity of gas (for air, g=1.0)

Neway has supplied cryogenic gate valves, cryogenic globe valves, cryogenic check valves, cryogenic ball valves, cryogenic butterfly valve, cryogenic control valves, SIS on off valves, molecular sieve switching valves for LNG industry since 2013. The valves meet BS6364, SHELL77/200、GB/T24925 standard. Until now, Neway has supplied some high end valves to customers including 56" cryogenic butterfly valve, 52" cryogenic gate valve, 24" Class 1500 cryogenic top entry on off valve, and hydrogen valve applied in -253°C,etc.

1

- 1 24" Class 1500 Top Entry Cryogenic Ball Valve
- 2 16" Class 150 Cryogenic ball valve for emergency release system(LNG)
- 3 12" Class 1500 Cryogenic Ball Valve
- 4 Top Entry Cryogenic Ball Valve
- 5 Pneumatic Emergency Shut Off Valve

Seller will replace without charge or refund the purchase price of products provided by Seller which prove to be defective in material or workmanship, provided in each case that the product is properly installed and is used in the service for which Seller recommends it and that written claim, specifying the alleged defect, is presented to the Seller within 18 months from the date of shipment or 12 months after installation, whichever occurs first. Seller shall in no event bear any labor, equipment, engineering or other costs incurred in connection with repair or replacement. The warranty stated in this paragraph is in lieu of all other warranties, either expressed or implied. With respect to warranties, this paragraph states Buyer's exclusive remedy and seller's exclusive liability.
