## Annlication

Neway is a primary manufacturer of valves for offshore topside systems including Platforms, FPSO, and FLNG Because of the severe operational conditions (corrosive environment, high pressure, salty air & water, deep water etc.) valves being used for offshore topside systems should be specially designed and manufactured with anti-co material, sealing and paint.

#### Offshore Wind Farm Power

Topside systems: Seawater distribution Seawater lift pumps Seawater return Diesel system Cooling medium coolers Cooling medium distribution Cooling medium expansion tank Oily water open drain system

Subsea Application Features: External pressure Corrosive seawater Difficult access Complex surroundings etc.

FPSO Topside Systems

Topside module(Production facility) Hull(Storage tanks) Mooring system( lines, flowlines) Offloading facility

# Offshore

As a well-known international industrial valve manufacturer, Neway is dedicated to the production and R&D of industrial valves. Neway is committed to providing complete industrial valve solutions to all industries through advanced engineering and innovation.

## **Product Range**

Gate / Globe / Check Valve								
Size(IN)	Pressure Range(CLASS)	End Connection	Temperature Range	Operation	Structral Style			
1/2" - 48"	150 - 4500	RF/ RTJ/ BW/ SW/ NPT/ HUB	-196°C - 650°C	Manual/ Motor Pneumatic/ Hydraulic	T-Pattern Globe Y-Pattern Globe Swing Type OS&Y			

- Fugitive emission performance design Integrated seat design for cryogenic globe valve and API
- Y-pattern globe offering higher CV performance 602 compact designed globe
- Internally assembled hinge pin design, minimize external leakage points
- Ball-like pin structure provide self-alignment, which ensure the stable sealing performance
- Optimal flow design & the maximum flow capacity by fluid analysis software simulation
- Dedicated accurate and match grinding to guarantee the sealing performance in low temperature
- Fire safe design

Check	Check Valve(Piston Type)						
Size(IN)	Pressure Range(CLASS)	End Connection	Temperature Range	Operation	Structral Style		
1/2" - 2"	150 - 2500	RF/ RTJ/ BW SW/ NPT	-196°C - 650°C	N/A	Piston/ Lifting Type		

Integral closed die forged for flanged body

- Body guided & spring return disc structure, avoid operation jamming and vibration
- To prolong the service life, the seal surface is made of cobalt-based alloy by weld overlay

Fire safe design

Check Valve(Dual-plate Type)						
Size(IN)	Pressure Range(CLASS)	End Connection	Temperature Range	Operation	Structral Style	
2" - 76"	150 - 2500	LUG/ RF/ Wafer RTJ/ HUB	-196°C - 650°C	N/A	Dual-plate Type

<ul> <li>No rubbing, longer life</li> <li>Laminated seal ring and solid metal seal ring optional and interchangeable</li> </ul>			<ul> <li>Fire safe design</li> <li>Torque seated to a</li> <li>Easy Maintenance</li> </ul>	chieve higher grade seal at site	performance	

Subsea Gate Valve						
Size(IN)	Pressure Range(CLASS)	End Connection	Temperature Range	Operation	Structral Style	
1" - 9"	900 & above	BW/RTJ	-46°C - 150°C	Hydraulic & ROV	Through Conduit Slab Gate	

· External seals to prevent seal water, even bolt hole

- Reliable body and stem sealing, metal ring for body, lip-seal group or multiple sealing for stem seal
- · Material and welding qualification

• Over 20 years design life without maintenance

Subsea Ball Valve					
Size(IN)	Pressure Range(CLASS)	End Connection	Temperature Range	Operation	Structral Style
1/2" - 48"	150 - 2500	BW/RTJ	-46°C - 150°C	Hydraulic & ROV	Trunnion Mounted
External	seals to prevent seal	water, even bolt hol	e		

• Reliable body and stem sealing, metal ring for body, lip-seal group or multiple sealing for stem seal

Material and welding qualification

• Over 20 years design life without maintenance

## **Technical Features**

#### Qualifications

- NORSOK qualified raw material and painting facility & procedure control
- Classification society, DNV/ABS/ BV/LR/RS, certified valve & material

#### Surface Consideration

- All outer sharp edges be rounded to a minimum radius of 2.5mm
- Outside small parts min. 316ss
- Marine atmosphere painting

#### **Testing& Inspection**

- Material pitting corrosion testing
- Intergranular corrosion testing
- HIC/SSC testing, when required
- Painting salinity/thickness/ adhesive force detection
- NDE

#### Applicable Structures

Valve type: Ball, Gate, Globe, Check, Butterfly End Connection: Flange, HUB, BW, SW, NPT Temperature: -196 - 650°C Size& pressure: 1/2 - 60" Class150 - 4500

- Lifting Lug and supporting leg
- Fire safe
- Anti-static
- Anti-blow out stem
- Soft seated and metal seated
- Fugitive emission

### **Certificates of Neway Offshore Valve**

(including but not limited to the following certificates)

- Classification society, DNV/ABS/ BV/LR/RS, certified valve & material
- NORSOK qualified raw material and painting facility & procedure control
- Special Equipment Manufacturing License in China
- Fugitive Emission certificate
- CE, ATEX Certification for the European Union
- Fire-Safe Certificate

## **Complete Solutions for Industrial Valves**

#### About Neway

Neway is a global valve manufacturer committed to the research/development, production, and sale of high-quality industrial valves. Our product scope includes Gate, Globe, Check, Ball, Butterfly, Nuclear, Control, Subsea, Safety valves and Well-Head equipment. Our valves are widely supplied to industries including Oil & Gas, Refining, Chemical/Petrochemical, Pipeline, LNG, On/Offshore Exploration & Production, Power, and Renewable/Green Energy applications. Neway's owned and vertically integrated R & D center, forging/casting plants, and production/assembly bases allow us to control all business processes to ensure a stable supply chain, rigorous quality control standards, and competitive pricing/delivery options. Approximately 3,500 employees all over the world strive to provide Neway's superior products and excellent service to our customers.

#### Neway Factory

Neway adopts the group multi-factory management model and has one major valve assembly plant in China with 230,000m<sup>2</sup> coverage, one API 6A valve plant, three casting foundries, one forging factory and new plant for Butterfly valve. Neway also has a joint venture factory in Saudi Arabia.

#### R&D

In order to meet the application requirements of valves in different fields, Neway applies advanced software (ANSYS, FE-SAFE, MathCAD, Autodesk Simulation CFD, Foxpro, NX, etc.) for product research and development, and has established professional material laboratory and special engineering test, which can simulate various extreme conditions and lav a solid foundation for the research and development of high-end valves.

#### Sales Network

Neway implements global marketing and sales strategy, has established sales companies and offices subordinate to China HQ globally, such as America, Netherlands, Italy, Singapore, UAE and Nigeria, and established strategic partnership with more than 80 overseas agents and distributors around the world.

#### Quality Guarantee

一

Neway is committed to providing zero defects valves to our customers and controls quality from order input, production process, final test to on-site service. Neway products obtained all major industrial qualifications including ISO9001, API 6A, API 6D, CE/PED, CU-TR, ASME N & NPT, TA-Luft, ABS, Norsok and fire safe, FE certificate, etc by our continuous efforts. Moreover, Neway has been approved as a qualified supplier by many world famous energy users. With its high-quality products and services, Neway has also been awarded the title of strategic supplier or "Best partner" by many customers.
