

Training Process

If customers are unable to reach the company for other reasons, they can apply for remote training, which can be conducted through Teams, Skype, Tencent Meetings, Dingding and other proposal software. Remote conference software must be booked 2 weeks in advance if required.

5G Remote Training

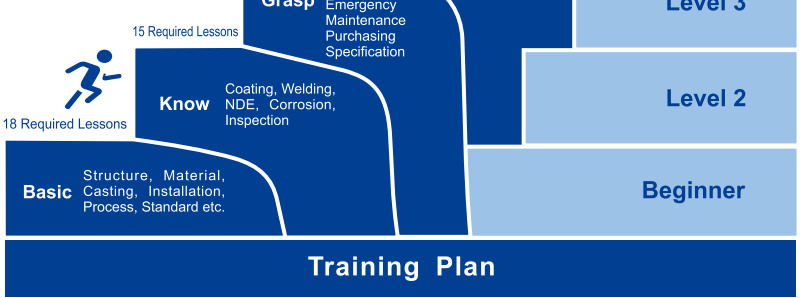

Training System

Neway will offer a 0~20 days (as agreed in contact) internship opportunity to engineer or anyone chosen by the COMPANY as part of an internship program at the SUPPLIER's WORKSHOP/OFFICE. The purpose of the internship is to provide the student with valuable work experience, develop new skills, and apply their coursework knowledge to real-life situations.

Neway is responsible for providing the following services(only for contract serve) to the student: assistance in obtaining an entry visa through an invitation letter (if necessary), Air fare, visa cost, insurance coverage for the duration of the internship, accommodation and subsistence, airport pickup, drop and transportation to the accommodation, and round-trip flight ticket from contact location to the nearest airport to the WORKSHOP/OFFICE(if contract required). For generally training non-official contract training, we will follow the agreement with separate email with contact person.

Training System

- Required Course
- Optional Course
- Case Studying
- Examination

Training Center History Memoirs

Facilities

Based on the different needs of trainees and the work content of the trainees, we have customized special valve training courses for over 200 individuals. These courses cover topics from valve casting and forging technologies to valve design and assembly, and then to valve testing and inspection, as well as on-site maintenance and application experience. Neway tailors each course according to a detailed lesson plan, aiming to ensure that the trainees become proficient in the skills involved.

Curriculum Database

Develop and provide a Local / National Content Plan in compliance with Company regulations and related requirements during the CONTRACT execution. Aim at enhancing the valve knowledge ability of site engineers, officers, inspector, Purchaser etc. Neway provides valve technical training services for users, and the training duration exceeds 1 day or the training course exceeds 3 parts.

Basic	Material	Standard	Quality	Instrumentation
